

2020 Tools Chart Updates

Our staff have been working behind the scenes to improve the look and functionality of NCII's six tools charts. The redesigned charts let users quickly and easily tap into the right amount of information for their needs. To guide the process, we engaged a range of tools chart users with the goal of creating a more user-friendly experience.

All	Title	Area	Grade	Measure	Reliability	Validity	Bias Analysis Conducted
<input type="checkbox"/>	amswebPlus Math	Number Sense Fluency	Grade 3	End Year Goal	○	●	No
<input type="checkbox"/>	amswebPlus Math	Number Sense Fluency	Grade 4	End Year Goal	○	●	No
<input type="checkbox"/>	amswebPlus Math	Number Sense Fluency	Grade 5	End Year Goal	○	●	No
<input type="checkbox"/>	amswebPlus Math	Quantity Total Fluency	Kindergarten	End Year Goal	○	○	No
<input type="checkbox"/>	amswebPlus Reading	Letter Naming Fluency	Kindergarten	End Year Goal	○	○	No
<input type="checkbox"/>	amswebPlus Reading	Letter Word Sounds Fluency	Kindergarten	End Year Goal	○	○	No
<input type="checkbox"/>	easyCBM	Letter Sounds	Kindergarten	End Year Goal	○	●	No
<input type="checkbox"/>	easyCBM	Letter Sounds	Grade 1	End Year Goal	○	●	No
<input type="checkbox"/>	easyCBM	Passage Reading Fluency	Grade 1	End Year Goal	○	●	No

What changed?

- Updated color scheme and formatting for better readability.
- Enhanced mobile responsiveness (when viewing on tablets or phones).
- Added "modal window" previews so users can see detailed evidence for each rating, or column heading descriptions, without leaving the page.
- Reorganized implementation information to help users focus on key factors like cost, training, and administration.
- Introduced the ability to print a customized view of select tools.

All	Title	Study	Behavioral Intervention Tools Chart	Analysis
<input type="checkbox"/>	Behavior Education Program (BEP) or Check-in/Check-out (CICO)	Todd, Campbell, Meyer, & Horner (2008)	Design ●	○
<input type="checkbox"/>	Breaks are Better	Boyd & Anderson (2013)	○	○
<input type="checkbox"/>	Check & Connect	Magnard, Kjeldsen & Thompson (2014)	○	○
<input type="checkbox"/>	Check & Connect	Sinclair, Christens & Thurlow (2005)	○	○
<input type="checkbox"/>	Check & Connect	Sinclair, Christens, Evelo, & Hurley (1998)	○	○
<input type="checkbox"/>	Check & Connect	Strand & Lovich (2014)	○	○

What stayed the same?

We maintained the depth of information and level of rigor users have come to trust. Key content has remained the same, including:

- The programs and tools that were previously featured on the charts (and their associated data). *No programs or tools have been added or removed.*
- The technical standards and review criteria used to evaluate the programs and tools.

Spotlight on the Intervention Charts

The intervention charts have been streamlined.

- There are fewer columns
- The first tab includes quality of study design and results
- The second tab includes quality of other indicators

View the charts and update your bookmarks!
